JJ is a model employee. He does his work quietly and competently, and he keeps his nose clean. But JJ's job is murder for hire, and when the kind of company he works for undergoes restructuring, people don't get fired -- they get fired upon. So for the first time in his life, JJ is not just a predator; he's the prey, and he doesn't even know why. All he knows is that the people close to him are being killed, former allies are turning against him, and the only person offering help is the best friend of one of his victims. It's one of the golden rules -- never become involved with a target's friends or family, with the people who loved him. But JJ's running out of options, and, despite himself, he's drawn by the lure of passing through that door, from his side of death to theirs. Much more than a straightforward hitman caper, *People Die* is a rare debut, combining tongue-in-cheek sensibility with heart-in-mouth suspense to provide killer entertainment.
